Subject: 2019-06-27 # Tract 50666 # Sewer Plans # Set aside Documents

---

Hello Ron,

I had a meeting with the County Sewer Division today. We are very close to have the sewer plans approved.
Since portion of the sewer main would be constructed within properties that would be dedicated to the City such as Lot D, the County is asking if the City would want to have the "Set Aside" easement documents prepared in the event the City would relinquish the dedicated lots to other entity. This way, the sewer easement would be set aside to the City for maintenance purposes.

I am not familiar with the process. I will investigate if you would require it.

Thank you
Selim Sawaya P.E. / P.L.S.
